and we're here to help with all your design/drafting needs.

Rose City Technical is small enough to give you personal attention, but large enough to get your job done professionally and on time.

Software

Rose City Technical has experience with the following software:

- AutoCAD (V9 to V2009)
- MicroStation 7J
- SolidWorks 2010

We are proud to use the latest AutoCAD & SolidWorks software along with Microsoft Office products.

Our Background

Industrial drafting has been the backbone of Rose City Technical Services, Inc. (RCTS), since its inception. We are eager to help with all phases of your project and look forward to working with you on

- initial process flow diagrams
- site plot plans
- foundation plans,
- piping/electrical utilities,
- general arrangements
- data sheets
- pipe routing requirements

RCTS can help right up to the end of the project with the needs for estimating and material lists.

After the project is completed, we can keep your drawings up to date. Rose City Technical Services Inc. (RCTS), specialties include

- industrial piping
- mechanical equipment

Mechanical and piping layouts play a major role in industrial projects and are one of the major incurring construction expenses. RCTS uses AutoCAD throughout its projects. If you are

- undergoing new construction
- up-grading facilities
- needing as-built documents
- maintaining drawings/files

our experienced staff is ready to help.

Ongoing/Completed Projects

- wastewater tank layouts
- baggage conveyor systems
- polysilicon plant projects
- starch-based agricultural plants
- hi-tech tool installations

Get help with all your drafting needs
